The man, on the right, has a grey beard and is wearing a light blue polo shirt. The infographic consists of four overlapping circles: a large dark green circle at the top containing the title; a black circle below it containing the total annual benefit limit; a light green circle at the bottom left containing monthly contributions; and another light green circle at the bottom right containing territorial limits. However, with time, some pandemics might become endemic, for example HIV/AIDS, and covid 19. When such is the case, MASM will monitor the government directives permitting private health facilities to cover pandemic diseases because of lack of capacity. With time, MASM may advise special coverage at a benefit-limit sustainable to the Society, after an analysis.

“The interpretation of all the above rules in this brochure is as applied or operationalized by MASM. The letter and intent of these rules solely rests with MASM. If there are any doubts as to the applicability of these rules, please consult MASM before risking on a medical transaction which you are not sure whether MASM will cover or not. Where possible insist on a written preauthorization from MASM”.
